

## KEY TO EXHIBIT INDEXES

There are two methods for numbering exhibits. The first is with the label **EX** followed by an accession number, e.g.; **EX 1**, **EX 2**. The second method uses a volume:number, e.g., **16:234**. The reference is to volume 16 of the exhibits, and page 234 in that particular volume. Sometimes exhibit volumes and exhibit numbers correspond, but more often they do not.

LEIGH, WALTER. RCMP report by Sgt. Leigh on the MLA expense claims investigation from October 1983 to October 1984. Met with Sarty and officials from the Auditor General's Office to discuss irregularities in MLS's expenses; Sarty wanted advice on how to proceed. After preliminary review the RCMP suggested they and Sarty meet with A.G. Dept. Sarty met with the Speaker to tell him of the intention to meet with the A.G. Dept.; the Speaker felt the Premier should be informed. Met with staff from Auditor General's Office and A.G. Dept., Coles wanted to review the material and would get back to the RCMP. Paul Cormier later told RCMP he thought Coles did not want a criminal investigation and although Gale was not opposed to a police investigation, Cormier thought Gale would go along with Coles. Investigation remained pending, and the file was closed in October 1984.
